Connecting people & devices in time

New Cloud Solution Captures Attendance and Location Data

What is EveryOneCloud?

- A solution for capturing attendance and location data
- A new cloud based system ready to go in minutes
- A cloud solution with no need for servers or software installation
- Pay As You Go with our low-cost monthly subscription service

How can it be used?

- Keep your employees safe by tracking their location in real-time
- Record their attendance
- Automatically create timesheets
- Integrate with your Workforce Management Software
- Provide real-time roll-call in case of emergency
- Set alerts/triggers based on clockings, time or location
- Remotely enrol staff on biometric readers

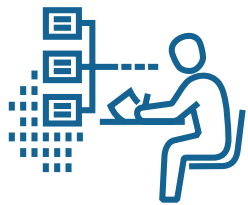

Staff:

- See their location
- Check what times they were present and for how long

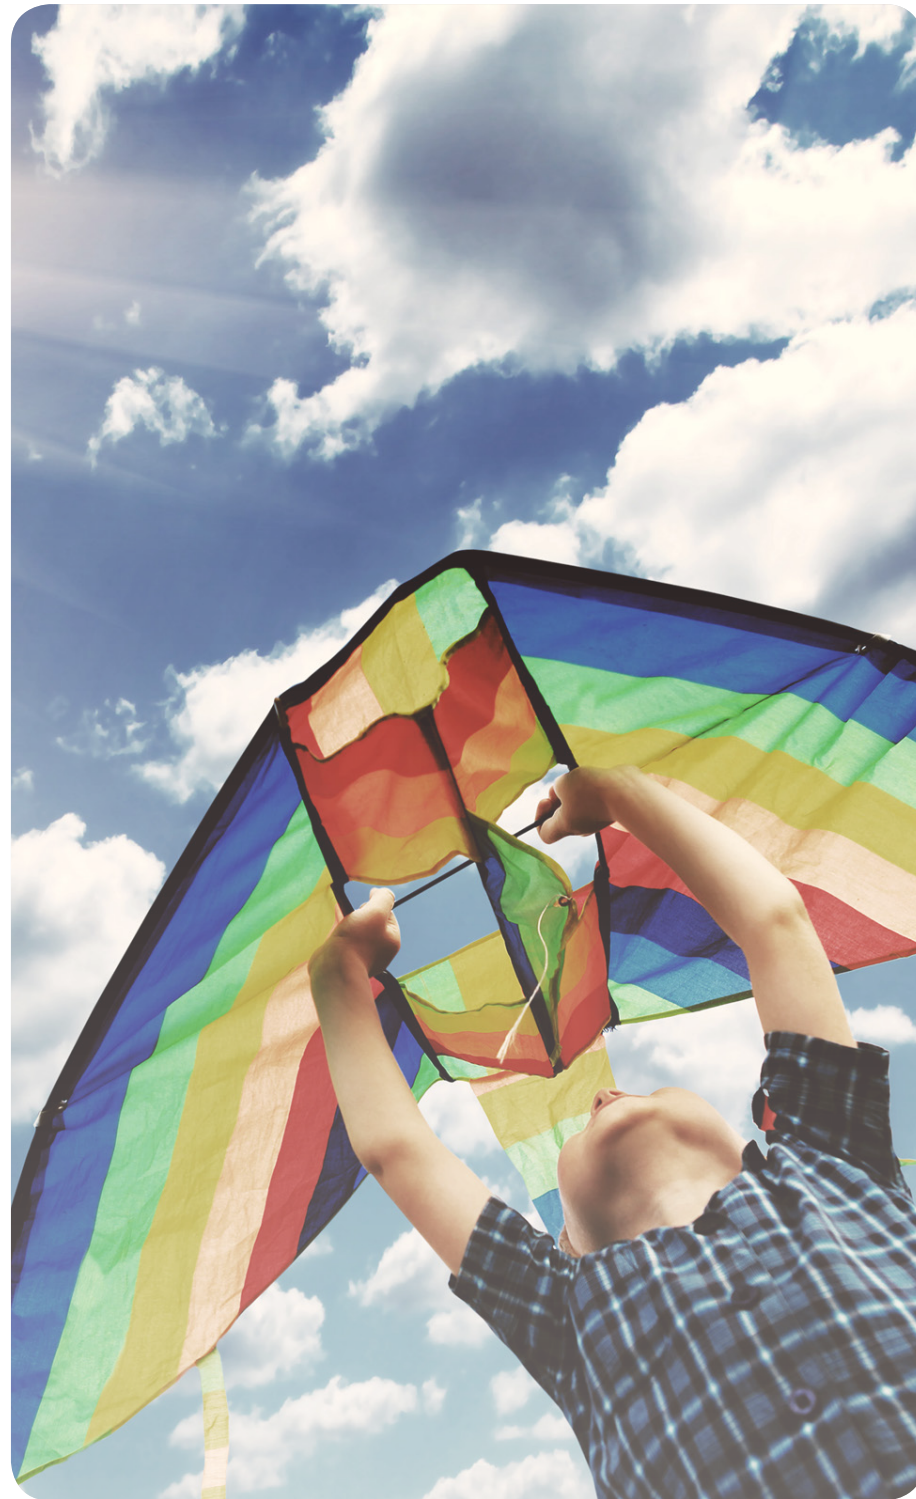

Export data to:

- Time and Attendance Systems
- Payroll Systems
- Student Management Systems
- Workforce Management Systems

Over 80 devices supported including:

- Hand Scanners
- Face Recognition Readers
- Finger Print devices
- Card or Fob readers including RFID/Mifare/HID/Em
- Mobile Application
- QR Codes
- PC, Laptops or Tablet/Kiosk

Start clocking from **50p** per employee per month.

Be up and running within **15 minutes** using our **3 simple steps**.

Step 1

Select your preferred clocking device

Step 2

Choose the right module for your organisational needs

eConnect

- Enable 3rd party Time and Attendance solutions to consume real-time data from any device
- Full Device Management and control
- Biometric template propagation management
- Automatic intelligent tagging of clockings

eTimesheet

- Capture real-time attendance data from any device
- Auto calculate gross duration of attendance
- Timesheet approval
- Export data to csv

Student Attendance Monitoring

- Real-time attendance tracking
- Analytics of seminar attendance rates
- Analyse room utilisation

Lone Worker Module

- Telecheck functionality enabling attendance recording through telephone (mobile or landline)
- Analyse attendance by location, client or activity
- Timesheet Approval
- Export to csv or integration into 3rd party systems
- Alerts for non-attendance and non-compliance

Site/Mobile Worker Module

- Track staff through mobile app with location mapping
- Tag staff by location, client or customer
- Remote clocking via mobile app or telecheck
- Timesheet approval
- Export to csv or integration into 3rd party systems
- Alerts for non-attendance and non-compliance

Visitor Module

- Record visitor attendance via PC, Laptop or Tablet
- Self Service mode
- Track visitors and manage car parking
- Auto alert host
- Full integration to Mustering

eSafety

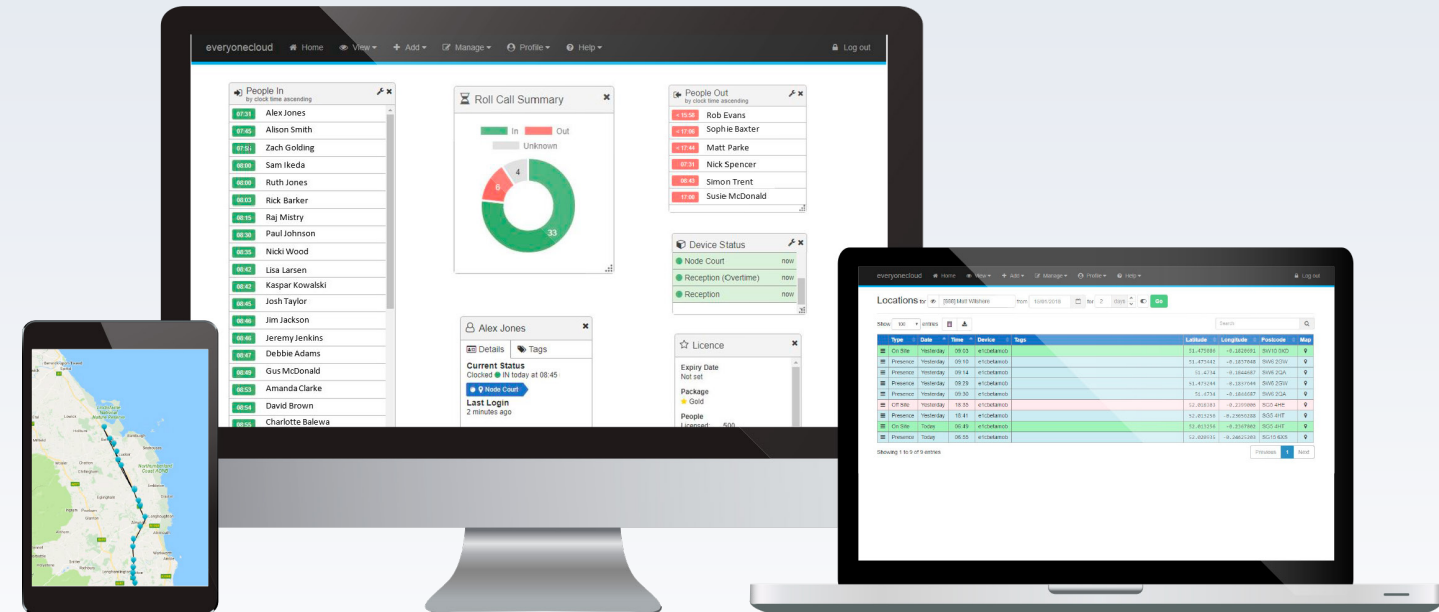

- Track staff location and attendance
- Full Mustering
- Automatic roll call report and integration to fire alarm
- Alerts for non-attendance or non-compliance
